

Golf carts with lithium ion batteries

Overview

This golf cart doesn't have the classic look that you would expect to find in a typical golf cart. It looks sportier, and the big off-road wheels help to give it that appearance and you can order.

The "Onward" series, made by Club Car, offers a 58V lithium battery package as an optional.

Garia is a Danish company with a subsidiary in the US founded in 2005. They make small luxury vehicles. Their model was simply called "Golf," and the street-legal model "Gari.

Yes, lithium batteries are the best type of batteries to power a golf cart because they last longer than conventional lead-acid batteries, charge faster, are lighter, and last up to five times longer.

There are 3 well-known golf cars and small electric utility vehicles manufacturers that are making golf carts with lithium batteries. These are EZ-Go, Club Car, and Garia. As lithium battery packages are not cheap, most companies offer them as optional. Below you will find three models fitted with factory lithium battery.
