

Government subsidies for solar photovoltaic panels

Overview

You may be able to get a loan through the Green Deal, but you'll have to pay this back.

Solar panel grants can reduce your energy bills by over £1,000 a year, and some government grants, such as the ECO4 scheme, even provide free solar panels to eligible households. Are there government grants for solar panels in the UK?

There are several government grants for solar panels in the UK, promoting the use of renewable energy sources and helping decrease carbon emissions. The EU's Renewable Energy Directive set out for all member countries to reach a 32% renewables target before 2030.

Are there government grants for solar panel users in Europe?

There are a number of government grants for solar panel users across Europe, which proves the growing importance of solar energy and how governments are trying to encourage people to make the most of solar energy.

Can you get a solar energy grant in 2023?

The grant opened in April 2023 and will run until March 2025. It can be used to fund home improvements, such as insulation, heat pumps, double glazing, solar thermal, and solar PV panels. As of February 2024, 28% of the grants handed out have been for solar panels, so applying for the grant is worth a shot if you're eligible.
