

Government subsidy policy for photovoltaic panels

Overview

You may be able to get a loan through the Green Deal, but you'll have to pay this back.

Solar panel grants can reduce your energy bills by over £1,000 a year, and some government grants, such as the ECO4 scheme, even provide free solar panels to eligible households. Are there government grants for solar panels in the UK?

There are several government grants for solar panels in the UK, promoting the use of renewable energy sources and helping decrease carbon emissions. The EU's Renewable Energy Directive set out for all member countries to reach a 32% renewables target before 2030.

Should you apply for a solar panel grant?

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,040. We recently conducted a survey of over 1,540 Independent readers who own solar panels* to understand how they made the most of the solar panel funding available to them.

Are there government grants for solar panel users in Europe?

There are a number of government grants for solar panel users across Europe, which proves the growing importance of solar energy and how governments are trying to encourage people to make the most of solar energy.

What does a solar panel grant cover?

Solar grants often only cover specific solar energy system components such as solar panels, inverters and installation costs. Battery storage or advanced monitoring systems are typically excluded from these funding programmes. How much can I save with a solar panel grant?

.

What if I don't qualify for a solar panel grant?

If you don't qualify for any solar panel grants, there's another way to start benefiting from solar electricity with no upfront cost. Sunsave Plus, the UK's first solar subscription, will provide you with best-in-class kit, all in one easy solar & battery package that comes with a 20-year Sunsave Guarantee.

Can you get a solar energy grant in 2023?

The grant opened in April 2023 and will run until March 2025. It can be used to fund home improvements, such as insulation, heat pumps, double glazing, solar thermal, and solar PV panels. As of February 2024, 28% of the grants handed out have been for solar panels, so applying for the grant is worth a shot if you're eligible.

Government subsidy policy for photovoltaic panels

Solar panel grants UK 2024 funding explained , The ...

By applying for a solar panel grant, you could receive heavily discounted or even free solar panels, resulting in annual energy bill savings upwards of £1,100.
