

# **Guanling photovoltaic panel project**

## Overview

---

CGN Guanling Solar PV Park is a 150MW solar PV power project. It is planned in Guizhou, China. Where is Qinghai's 'photovoltaic-pastoral storage' project located?

Recently, Qinghai Company's Hainan Base under CHINA Energy in Gonghe County has successfully connected the fourth phase of its 1 million kilowatt 'Photovoltaic-Pastoral Storage' project and the 200,000-kilowatt photovoltaic project to the grid for electricity generation.

Where is a solar project located in China?

This project is one of the first batch of large-scale wind and photovoltaic base projects in China, located within the Talatan Photovoltaic and Thermal Power Park in Gonghe County, Hainan Prefecture, Qinghai Province, which is one of the most solar-rich regions in China.

What is photovoltaic-pastoral integration?

This has paved the way for a new 'Photovoltaic-Pastoral Integration' model that couples renewable energy development with animal husbandry. Upon operation, it is estimated to contribute 2.1 billion kilowatt-hours of clean electricity annually, saving 649,000 tons of standard coal.
