Berkeley Lab Part of California Team to Receive up to \$122 ...

The U.S. Department of Energy has awarded up to \$122 million over five years to a multi-institutional partnership headed by Cal Tech and Berkeley Lab to establish an Energy Innovation Hub aimed at developing revolutionary methods to generate fuels directly from sunlight. The new energy hub will be called the Joint Center for Artificial Photosynthesis.

About Us

Here at Helios Solar Energy we're committed to providing you with the best possible solar installation at an affordable price. We are a family owned business located on the Massachusetts and New Hampshire line which allows us to install and service systems in our neighborhood and throughout New England.

About HeliosNE, Solar Charge Controller factory

Helios New Energy Co., Ltd is a high tech enterprise for R& D, manufacture, and marketing of solar products, mainly focus on areas of solar DC charge, and other PV energy storage applications. Our company have been well experienced in technology of solar DC charge, especially on PWM & MPPT solar charge controllers.
