Overview

What is generator repair & maintenance?

Our generator repair and maintenance services cover all types of generator issues, from minor faults to full-scale system breakdowns. With fast turnaround times and expert technicians, we ensure your generator is back online as soon as possible. Prevent costly outages by scheduling regular maintenance, or contact us for emergency repair services.

Can a generator be repaired?

We can also repair issues involving fuel tanks, transfer switches and other issues relating to a generator installation. Please don't hesitate to contact us today should you require any type of generator repair or to arrange for a preventative maintenance servicing plan to be put in place for your generator.

Where can I get a generator service inspection?

For all generator servicing, repair and maintenance enquiries, visit our sister company PPSPower. If you have a small leisure type generator that could be picked up and despatched back to our factory, we would be happy to carry out a 10 point service inspection for you.

What services do you offer for a generator?

Routine Maintenance: On-site preventative care to keep your generator running smoothly. Diagnostics and Repairs: We come equipped to identify and resolve issues directly at your location. Servicing: Tailored maintenance for petrol, diesel, and LPG generators to ensure fuel efficiency and reliability.
