

Household solar photovoltaic panels cost performance

Overview

How much does a solar panel system cost?

Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. The average domestic solar panel system is 3.5kWp and costs around £7,000.

How much does a photovoltaic system cost in the UK?

- A household in the UK installs a 5kW photovoltaic system costing £8000 (average cost), which would generate approximately 4320 kWh of electricity annually.
- The annual SEG income in the UK would be £324 per annum.

How much energy does a solar PV system generate a year?

Solar panel systems on homes are typically up to 4kWp. A system of this size can generate more than 3,000kWh per year. For comparison, a home using a 'medium' amount of electricity gets through 2,700kWh a year on average, according to energy regulator Ofgem. A 'high' user takes 4,100kWh a year. The cost of a solar PV system depends on:.

Can a solar PV system save you money?

The most robust information available on potential solar PV savings comes from the Energy Saving Trust. Based on a 3.5kW solar panel system costing £7,000 to install, and current energy prices (Oct 2023), its research suggests households who are at home all day can save up to £525 per year with the SEG, versus £400 without.

How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a

solar & battery system, as there's currently 0% VAT on both panels and batteries.

How much does a 5 kWp solar system cost?

In some cases, a 5 kWp solar PV array will be sufficient to meet those energy demands. A 5 kWp solar system will typically require around 15 solar panels at 350W each and cost between £8,000 to £12,000. *The figures in this table are calculated based on 350W solar panels and the national average household energy consumption (2022).
