

# How long does it take to install photovoltaic panels for free

## Overview

---

Solar panel installations typically take about two days to complete. Is it a good time to install solar panels?

Hopefully you feel more confident about the process of installing solar panels. With 69% of people telling our National Home Energy Survey that they're likely to buy or rent a home with solar panels, now is a great time to go solar.

How long does it take to install solar panels?

"When you have decided that you would like solar panels fitted, a desktop survey and quote is done," explains David. "This should not take more than about an hour or so to prepare. You may want to get two or three quotes from different installers to compare quotes and service.

Can you get free solar panels on a roof?

Companies offered to pay to lease your roof from you for 20-25 years and, in exchange, would install and maintain solar PV panels on it. You didn't have to pay upfront for the panels, and would also benefit from the free electricity produced by the system. But there are very few free solar panel schemes available now.

How to install solar panels?

Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5. Erect the scaffolding (this can be done by your supplier or by a company you organise) 6. The solar panel mounts will be installed 7. The professionals will install the solar panels 8.

Do you own solar panels?

You OWN the solar panels. Under these schemes, you pay for solar panels over a fixed period, say 20 years. There are no upfront costs, and instead you pay a monthly fee, which usually covers the solar panel and battery

installation, repairs and maintenance.

What if I signed up for free solar panels?

If you signed up for free solar panels when the FIT rate was at its highest, back in 2011, we calculated that you could miss out on as much as £23,000 for a 4kWp system. You would also have saved more than £5,000 over 25 years from the electricity produced by the panels.
