

# How much does a solar power generation set cost

## Overview

---

The average cost of a solar panel installation is £7,100 (£9,600 with a battery) for a typical three-bedroom property in the UK. How much does a solar panel system cost?

Solar electricity is low carbon, renewable energy. A typical home solar panel system could save around one tonne of carbon per year, depending on where you live in the UK. That's the equivalent of driving 3,600 miles, or from London to Bristol 30 times. The average domestic solar panel system is 3.5kWp and costs around £7,000.

How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.

How much does a solar panel cost in the UK?

The average cost of a solar panel system for a typical three-bedroom house in the UK is £9,600, including a battery. ☐Solar panels can save you up to £1,014 annually, totalling nearly £30,000 of savings over their lifespan. ☐Adding a solar battery can boost your energy savings by up to 90 per cent.

What costs should you consider before installing solar panels?

There are two other potential costs you should look into before installing solar panels, these are maintenance costs and repair costs.

How much does it cost to clean solar panels?

However, if you notice your solar panels becoming dirty – for example, bird droppings, or dust building up on them during a dry, hot summer – you should consider getting them cleaned. Solar panel cleaning by a professional will cost

around £100, but you can do it yourself with a hose. How much do solar batteries cost?

.

How much does solar panel maintenance cost?

Solar panel maintenance can cost hundreds or even thousands of pounds over your panels' lifespan, if you don't have a maintenance payment plan in place. Industry experts estimate that every year, the average solar & battery system in the UK has a 15% chance of requiring maintenance, across a 20-year period.
