There are three main employee types that are paid commissions in the solar sales industry. These include: Canvassers: While not directly involved in coordinating sales or transactions, canvassers help with all of the backend work such as lead generation, customer prospecting, and scheduling appointments for sales reps.

What is a solar commission?

The solar commission is a rebate that helps offset the cost of installing solar panels on your home. To calculate your rebate, you'll need to know the size of your solar panel system in kilowatts (kW), the type of system you have (on-grid or off-grid), and the state in which you live.

How do solar companies calculate commission rates?

Therefore, some solar companies calculate their base commission rate on the average solar system size and cost to install the system. Then, they'll couple this base rate with incentive multipliers to encourage better-than-average sales. Say your average system size is 6kW, and your average installation cost per watt is \$3.00.
