How much does a solar & battery system cost?

The average cost of a 3kWp solar panel system for a typical property with two or three bedrooms is about £9,000, including installation. This jumps up to around £11,000 if you're adding a 5kWh battery. This is a great time to get a solar & battery system, as there's currently 0% VAT on both panels and batteries.

Why do solar panels cost so much?

Solar panel quality significantly impacts their cost. Higher-quality panels, made with superior materials and advanced technology, offer greater efficiency, longer lifespans, and better warranties. This higher upfront cost is justified by increased energy production and durability, leading to greater long-term savings and reliability.

How much would a 4.5 kWp solar system cost?

They may be able to install a 4.5 kWp solar panel system at a cost of around £7,100. Based on a system this size, the solar panels would be expected to generate 2,850 kWh of electricity a year, equivalent to boiling a kettle 26,000 times. The two the occupants would be expected to use 35% of this electricity and export the remaining 65%.
