

How to buy photovoltaic panels cost-effectively

Overview

The most cost-effective way to finance the installation of solar PV panels is to pay in full using your own savings. If you're unable to pay upfront, you could consider a loan or remortgaging. How much does a solar panel cost in the UK?

The average cost of a solar panel system for a typical three-bedroom house in the UK is £9,600, including a battery. ☐Solar panels can save you up to £1,014 annually, totalling nearly £30,000 of savings over their lifespan. ☐Adding a solar battery can boost your energy savings by up to 90 per cent.

How much do solar panels cost?

The price of a typical 3.5 kilowatt-peak PV solar panel system is about £7,000. Based on the Energy Saving Trust's figures, it could take someone living in the middle of the country, in a typical home, anywhere between 12 and 17 years to recoup the costs of installing panels, based on current Energy Price Cap rates.

How much does it cost to clean solar panels?

However, if you notice your solar panels becoming dirty – for example, bird droppings, or dust building up on them during a dry, hot summer – you should consider getting them cleaned. Solar panel cleaning by a professional will cost around £100, but you can do it yourself with a hose. How much do solar batteries cost?

.

Should you buy a solar PV system for your home?

Well-chosen solar panels can provide a reliable source of renewable electricity for decades, helping to slash your electricity bills and cut your carbon footprint. But buying an inappropriate solar PV system for your home could leave you out of pocket.

How can I save money on solar panels?

If you're looking to save money on solar panels, try these strategies: You can get solar panels at no upfront cost with a subscription like Sunsave Plus, which offers all the benefits of going solar without the burden of the initial payment.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.
