

How to deal with solar power generation fraud

Overview

To protect yourself from clean energy scams: Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. Take your time. Anyone who pressures you into a contract or demands up-front or immediate payment is a scammer. Protect your personal information. Are solar panels a scam?

That is, of course, also a scam. To protect yourself from clean energy scams: Know that “free” or “no cost” solar panel offers are scams. The federal government does not install solar systems in homes for free. If you’re considering whether solar energy is right for you, check out the Department of Energy’s guide for homeowners and learn more.

Are 'upselling scams' causing a surge in solar panel fraud?

However, homeowners making the most of the Government’s solar panel drive have increasingly fallen victim to conmen. Citizens Advice has warned of a surge in solar panel fraud, particularly “upselling scams” in which cold-callers convince customers to upgrade technology they already have to meet fabricated legal “standards”.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways ‘fake’ solar companies have targeted consumers – whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Are solar business leads a scam?

At best, this is someone generating leads to sell, not actual solar businesses. At worst, they’re scammers trying to steal your identity. If you spot a scam, tell the Federal Trade Commission at [ReportFraud.ftc.gov](https://www.ftc.gov/identity-theft).

What should I do if a solar business is a scam?

Protect your personal information. Don't respond to unexpected requests online or on social media for your name, address, or other personal information to "see if you qualify." At best, this is someone generating leads to sell, not actual solar businesses. At worst, they're scammers trying to steal your identity.

What are energy scams?

Energy scams involve people pretending to be energy companies or regulators to get your money or personal information. These scammers may pretend to be your energy company, say they're from Ofgem or even from Energy Saving Trust to try and gain your trust.
