

# How to place a TV on a photovoltaic panel rack

## Overview

---

Here's a quick video overview of this tutorial. Check it out below and consider subscribing to my YouTube channel for more DIY solar videos like this! .

First things first, you need to pick a place to mount your parts. Make sure that all your wiring (solar cables, battery cables, TV power cord with or without an extension cable) can reach your mounting location. Technically it's.

We're going to add a fuse on the positive wire between the battery and charge controller for safety reasons. If you've never done this before.

Place your solar panel(s) outside in a sunny spot and cover it with a towel to reduce the risk of electrical shock. If you want to mount your solar panel, you can use the kit's included.
