## Overview

---

Should solar industry recruits be based on office-based jobs?

Solar-industry companies need to forget ideas about office-based roles and look far afield to source the recruits necessary for the energy transition – and then they need to keep them loyal by offering a rewarding career. The race is on across Europe for solar industry recruits.

What jobs are available in the solar industry?

The solar industry offers opportunities to work in science, engineering, manufacturing, construction, and installation. Scientists, for example, typically focus on research and development of new solar materials, and engineers are involved in designing new solar technology and enhancing existing systems.

Are there any opportunities in the UK's solar industry?

But there are already plenty of opportunities available in the UK's solar industry. The list of best solar panels in the UK is growing, as is the list of installers. In fact, there are over 1,550 MCS-certified companies containing in the UK that employ solar panel installers.

How many solar panel installers are there in the UK?

There are roughly 44,965 electrician businesses in the UK, compared to only 1,550 MCS-certified companies with solar panel installers. Although this is enough for today's demand, we'll certainly need more installers in the coming year as solar panels get more popular. In fact, we're already seeing an increased demand for solar panel installers.

How do I become a solar panel installer?

We've listed the two main ways you can get qualified below. One of the most popular ways to become a solar panel installer is to attend a college course, such as a Level 2 or 3 Diploma in Electrical Installation, which will help you gain the necessary knowledge and skills.

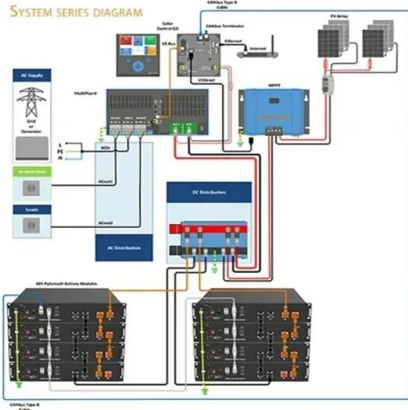

What GCSEs do you need to become a solar panel installer?

To qualify for an electrician apprenticeship, you'll need to be over the age of 16 and have at least four GCSEs (or equivalent) in grades 9 to 4 (A\* to C), including English and maths. How much does it cost to become a solar panel installer?

The cost of becoming a solar panel installer varies, depending on the courses you attend.

## How to recruit workers to make photovoltaic panels

### [How to clean solar panels in six easy steps](#)

Cost of cleaning solar panels "Solar panel cleaning costs between £4 - £15 per panel. The total solar panel cleaning costs will be affected by several factors, the biggest of which would be if your solar panels are on ...
