Hynfra poland

Overview

Who is hynfra energy storage?

Image: Claritas Investments / Hynfra Energy Storage. Investor Claritas and system integrator Hynfra Energy Storage (HES) have signed a framework agreement to deploy half a gigawatt of utility-scale battery energy storage in Poland. The two firms, based in the Netherlands and Poland respectively, signed the agreement last week (13 December).

Will hynfra make it to Poland?

“Not all will make it,” Umeda said, but Hynfra is “doing all it can” to put its 580MW in, and plans to submit 2GW for next year’s. The Polish market is starting from a low base but looks set to pick up as renewable deployments increase and with it, opportunities for energy storage.

Who is hynfra?

The founder of Hynfra and Hynfra Energy Storage. A entrepreneur and strategic advisor, promoter of hydrogen technologies and large-scale renewable energy solutions. He is committed to accelerating market and technological progress towards climate neutrality.

What makes hynfra unique?

For the creation and utilization of renewable hydrogen, its derivatives, green energy, and renewable heat sources, it designs and develops facilities. The four pillars that support Hynfra’s portfolio are energy storage, ammonia, industrial, and municipal.

What is hynfra & Energy Group?

The agreement states that Hynfra will be in charge of ensuring the integration of technological solutions and the implementation of plants for the production and distribution of renewable hydrogen, ammonia, or methanol based on RES energy, while Energy Group will be in charge of site acquisition, development,

and preparation for RES plants.

Why did Claritas sign a framework agreement with hynfra energy storage?

The framework agreement with HES marks Claritas's first investment in the Polish battery energy storage market. On December 13th, 2022 CLARITAS signed a Framework Development Agreement with Hynfra Energy Storage for the development of utility-scale energy storage systems in Poland.
