

India renewable energy park

Higher Anti-Rust Performance
Lower Internal Impedance

Overview

The Gujarat Hybrid Renewable Energy Park or Khavda Solar Park is an under construction park located near Vighakot village in of , India. It is located very close to the international border with . It is expected to generate 30 (GW) electricity from both solar panels and wind turbines when completed, over an area of 72,600 hectares (726 km). 1 GW capacity was commissioned in March 2024.
