

# Individuals install solar panels at home

## Overview

---

Where can I install solar panels?

You can install them on your home, business premises, outbuilding, garden office, shed, workshop or garage – and even shepherd’s huts for those who run a luxury holiday let facility. As long as the roof is strong enough and large enough to fit the units, you can install solar panels on whatever type of property you want to supply energy to.

Can I install my own solar panels?

Yes, you can install your own solar panels. Sunstore Solar can provide professional installation, but we appreciate some people like to get stuck into a project. We designed our solar panel kits specifically for DIY solar panel installation projects. And what better project than providing energy security for your family or business?

.

How do I plan a solar panel installation?

Choose a supplier and establish if the installation will fall under Permitted Development or if full planning permission is required 3. Make space for the solar panel accessories (solar inverter, cables and solar batteries, if desired), for instance in a plant room 4. Plan a day for installation 5.

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solar is particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.

How much does it cost to install solar panels?

For a 2,000 square foot home, expect solar installation to run from \$10,000 –

\$20,000. Other factors affect pricing, such as the size of the system, demand, etc. Some installations may be less expensive. What are the dangers of installing solar panels?

.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.
