Infinity Energy began in 2014 with services in California and Texas. The solar provider sells panels and solar batteries from various popular manufacturers,

including Tesla and Enphase. The company also installs and replaces roofs.

What makes Infinity Solar USA different from other solar companies?

Unlike most of our competitors, we do everything in house. Most solar companies complete their work through third party contractors, who work for their own company. This creates a line of communication that can be lacking compared to the work done from a company that is completely internal. At Infinity Solar USA, everyone knows everyone.
