

Interior of CIMC energy storage container

Overview

What is CIMC Yangzhou base energy storage container?

CIMC Yangzhou Base Energy Storage Container can integrate energy storage converters and energy management systems according to customer needs. Energy Storage Container has the characteristics of simplified infrastructure construction cost, short construction period, high degree of modularization, and easy transportation and installation.

Where are CIMC containers made?

Around 98 per cent of the world's containers are made in China, according to Mai. CIMC are currently operating 20 production lines to manufacture around 220,000 TEU every month, close to half of the total production capacity of the industry, with workers on a schedule of 11 hours per shift, six days a week.

What is a CIMC container chassis?

A CIMC container chassis is characterized by its mechanical suspension, which is a common type composed of a leaf spring, suspension support (also known as a lifting ear), connecting rod, U-bolt, and other parts. The longitudinal force of the body directly falls on an axle, making it reliable and easy to maintain.

What is a CIMC container trailer?

CIMC container trailers are designed for maritime container and sea freight transport tasks. They offer both safe and rapid container handling. CIMC trailers possess a long service life even under the tough conditions that a semi-trailer container chassis faces on a daily basis.

What can CIMC Enric do for You?

The 40-foot liquid hydrogen tank container provides an optimal solution for large-scale, long-distance multimodal hydrogen energy transportation. Looking forward, CIMC Enric will comprehensively strengthen its efforts in the new field of hydrogen energy.

Who is CIMC Enric?

CIMC Enric is a leading supplier of clean energy equipment in China and the pioneer in the complete layout of hydrogen energy industry chain. With over a decade of experience in hydrogen energy storage and transportation, CIMC Enric possesses leading technical expertise.
