

Invergy india private limited

Overview

Is Invergy launching a single-phase hybrid residential inverter in India?

Invergy promoted its single-phase hybrid residential inverter at Intersolar India last week. From PV Magazine India, London-based inverter and battery company Invergy, which this year launched its hybrid solar inverters in India, is targeting residential arrays with 3-12 kW products for use in single and three-phase set-ups.

Who is Invergy India Private Limited?

We are thrilled to announce that #iNVERGY India Private Limited has partnered with Adani Solar to distribute solar panels alongside the iNVERGY product range to deepen its roots in the state of #UttarPradesh.

Are Invergy inverters in competition with other inverter brands in India?

Invergy director Deepak Pandey told PV Magazine: "Our product line is not in competition with other inverter brands present in India. Ours are next-generation inverters with features that have not been introduced in India 'till today. These are IP65-compatible units compatible with both lithium-ion and lead-acid batteries.

Will Invergy build a new inverter factory in India?

As part of its push for Indian customers, the company will build an inverter factory in Noida, Uttar Pradesh by May which will be able to manufacture 5 MW of products annually. Invergy director Deepak Pandey told PV Magazine: "Our product line is not in competition with other inverter brands present in India.

Will Invergy's hybrid residential inverter replace the existing market?

Director Deepak Pandey is confident the company's hybrid devices – which are lead-acid and lithium battery compatible – will replace the existing market. Invergy promoted its single-phase hybrid residential inverter at

Intersolar India last week. From pv magazine India.
