

# **Is it okay to clean photovoltaic panels frequently**

## Overview

---

Do solar PV panels need to be cleaned?

That said, most solar pv panels in the UK will not need any heavy-duty cleaning because regular rain will wash most dirt and grime off the surface, dispelling one of the myths about solar being its difficulty to clean.

Should you clean your solar panels regularly?

The experts at Solar Panel Cleaning Ltd explain that if you don't regularly clean your solar panels dust can accumulate and even just one dusty cell can affect the performance of the entire panel.

Should you hire a professional solar panel cleaning service?

By hiring a professional, you'll know that your solar panel cleaning will be done correctly. To find the right person for the job, ask for a recommendation from others who have solar panels on their property, or do a Google search for "solar panel cleaning service near me" and review the options that come up.

How often should you wash solar panels?

While some suggest that regularly washing panels is necessary to get the maximum solar conversion possible. Others feel that solar panels should only get a rinse off once in a while if you see a notably low solar output.

How much does it cost to clean solar panels?

The average cost of cleaning solar panels is around \$150, but some solar panel installers offer a free or reduced-price cleaning service. Some solar panel manufacturers actually require you to clean your panels every six months to keep your warranty valid.

Should you clean solar panels on a rooftop?

Safety is vital when it comes to cleaning solar panels, especially if they're on

rooftops or elevated locations. Some essential safety precautions to follow include: Turning Off Power: Before cleaning the solar panels, switch off the power supply to the system to prevent the risk of electric shock.
