

Is it true that you can rent land to install photovoltaic panels

Overview

Yes, you can install solar panels and benefit from solar power if you live in a flat, whether you own or rent. However, it is a bit more complicated than it would be if you lived in a house. Can I rent land for a solar farm?

Renting land for a solar farm is a commercial lease and is not an agricultural use, so Agricultural Property Relief from inheritance tax may be lost. Transferring ownership of the land to another individual or trading entity before any development starts may be worth considering, to minimise the tax implications, but seek professional advice.

Should a tenant be required to leave solar panels on the land?

If the landowner validly forfeits the lease due to a breach of covenant or non-payment of rent, consider whether the tenant should be required to leave the solar panels on the land until all monies due to the landlord have been paid. Solar panels are a valuable asset and could be used to offset any debt owed to the landlord.

Can you install solar panels if you live in a flat?

Yes, you can install solar panels and benefit from solar power if you live in a flat, whether you own or rent. However, it is a bit more complicated than it would be if you lived in a house. This is because you can't decide on your own to make any changes to whole block of flats, unless you own the building.

What are the tax implications of renting land for a solar farm?

What are the tax implications?

Renting land for a solar farm is a commercial lease and is not an agricultural use, so Agricultural Property Relief from inheritance tax may be lost.

What are solar panel leases & how do they work?

For obvious reasons, solar panel leases will grant the tenant a right of free,

uninterrupted and unobstructed passage of light to the solar panels. As a result, the landowner cannot do anything on the land or its adjoining land that would restrict the light flow to the solar panels.

Can you lease a solar farm?

Using a portion of your land to lease for a solar farm opens up a diversified and dependable income stream. Responsibly designed solar can be a partner that supports the success of the UK's rural communities for generations to come.
