

Isolar pool solar heating system

Overview

How does the Isolar panel work?

The ISolar Panel efficiently heats your pool water by absorbing energy from the sun. The ISolar Panel captures your pool water after it enters your filtration system, all while absorbing heat/energy from the sun, and then expels the freshly heated pool water back into your pool. Please Note: Products might not be available at all locations.

What is Isolar solar heating for above ground pools?

The all new iSolar solar heating system for above ground pools is the easiest way to raise your pool water temperature by up to 10 degrees Fahrenheit / 6 degrees Celsius! Available direct online with fast shipping from Pool Supplies Canada.

How does Isolar heat a pool?

Simple installation! The all new iSolar solar heating system for above ground pools is the easiest way to raise your pool water temperature by up to 10 degrees Fahrenheit / 6 degrees Celsius! Easy to set up and even easier to use, there has never been a better way to harness the power of the sun to heat your pool for free.

How do solar pool heaters work?

Solar pool heaters can be installed into the existing plumbing of the pool. Solar pool heaters use solar panels to collect sunlight. There are two main parts to installing a solar heater - mounting solar panels and connecting them to the pool's plumbing. If you want you can also DIY your own solar heater.

Does a solar heating panel work in a swimming pool?

Fafco recommends its users to tilt the solar heating panel 10 to 30° to the South for a strengthened performance in warming up the pool water. It is applicable to swimming pools up to 17,000 gallons and includes a built-in

bypass valve to regulate the water. It can be mounted in various areas. It works best within a specific time.

Can solar power a pool heater?

Photovoltaic solar panels can help you squeeze even more value out of a heat pump pool heater. Typically, you wouldn't install a separate solar system for your pool; you'd get solar for your entire house, with enough capacity to power the pool heater along with all of your other appliances and gadgets and electric vehicles.
