

JA Solar Panel Brand

Overview

JA Solar Holdings Co. is a leading manufacturer of high-efficiency photovoltaic solar panels, based in Shanghai, China with several global offices, including one in San Jose, California. Is JA Solar a good brand?

JA Solar is considered a high-efficiency budget brand, so while the panels have good performance, the cost per watt is still below what most competitors charge. Temperature Coefficient (10%): The temperature coefficient of a panel tells you how much of the panel's efficiency is lost per degree over 77 degrees (F).

Who makes JA Solar panels?

Join the 1,587 homeowners who got free quotes in the past 30 days. JA Solar Holdings is based in Shanghai, China, and it manufactures solar panels and a variety of solar-related materials for residential and commercial applications.

Which JA Solar panel is best?

JA Solar's JAM60S20 panel offers high efficiency of 21 per cent and a power output of 340W, for a lower price tag than many of its competitors. Meanwhile, the JAM72S30 LR solar panel stands out for larger homes, as it boasts an impressive power output of 585W, which is a greater output than most domestic panels.

What is JA Solar?

JA Solar focuses on production of powerful monocrystalline solar photovoltaic (PV) cells with PERC (Passivated Emitter and Rear Cell) technology. Consisting of high-purity, half-cut single silicon crystals, these solar cells are far more efficient than cheaper polycrystalline solar panels, which need more roof space.

Is JA Solar a Tier 1 manufacturer?

JA Solar is classified as a Tier 1 manufacturer by BloombergNEF. This means it

employs state-of-the-art robotic techniques to oversee the production process, minimising or completely eradicating errors associated with human intervention. Tier 1 panels are also crafted from the highest quality silicon, boosting the solar panel's performance.

Is JA Solar a global company?

Over the years, JA Solar's influence has expanded globally, and its footprint now extends to several continents, indicating its prominent role in the worldwide solar market, and the company's ability to cater to diverse customer requirements. In May 2023, the company released its next-generation DeepBlue 4.0 Pro solar panels.
