

# **Ja solar panels prices**

## Overview

---

How much do JA Solar panels cost?

JA Solar panels are estimated to cost about \$2.80 per watt. However, the total cost for individual panels can be difficult to determine because a lot of factors can change their pricing, such as local installation prices and costs to ship the panels to the installation location. Where are JA Solar panels made?

The majority of manufacturing is located in China, with additional facilities in Vietnam and Malaysia. JA Solar is a massive vertically integrated Chinese based company producing wafers, cells and panels which are available in 135 countries and regions. The company offers a range of panels for residential, commercial and utility-scale systems.

How much does JA Solar cost?

The price per watt is somewhere between \$0.55-\$0.65. You could say that JA Solar prices match the ones of Trina Solar, slightly cheaper than Canadian Solar, but a bit more expensive than LONGi Solar. Lower LCOE (levelized cost of electricity) is mentioned in the description of every JA Solar panel.

Is JA Solar a good solar panel company?

In terms of solar panel options, JA Solar has a number of variations for the customer to choose from. With the ability to get different power outputs, solar cell counts, and solar cells types, JA Solar offers a great level of flexibility that earns them a spot as a top solar panel on our reviews.

What are JA Solar panels?

They can be standard monofacial panels, or more rare bifacial modules. The latter are great for utility-scale installations giving 30-35% more production for the same space. The efficiency of JA Solar panels usually hovers between 20% and 21%, which is above average on the market.

What is the output power of JA Solar panels?

The JA Solar monocrystalline solar panels found in our range provide an output power of 405, 550, or 460 W. JA TECH is an official distributor of photovoltaic panels manufactured by JA Solar. Become our partner too and get access to all the advantages of mutual collaboration.

Why are JA Solar panels so expensive?

This could be because they are manufactured in China, making their cost to build low. The best way to find pricing for JA solar panels is to get a commitment-free quote from local installers who use them in their solar installations. What is the JA Solar warranty?
