

# **Journal of applied energy impact factor**

## Overview

---

What is the impact factor of Applied Energy?

The latest impact factor of applied energy is 11.446. The impact factor (IF) is a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of a journal by calculating the times it's articles are cited.

What is the impact factor of Applied Energy in 2021?

According to the Journal Citation Reports, the journal has a 2021 impact factor of 11.446, ranking it 6 out of 143 journals in the category "Engineering, Chemical". ^ "Applied Energy".

What is the rank of Applied Energy?

The overall rank of Applied Energy is 749. According to SCImago Journal Rank (SJR), this journal is ranked 2.82. SCImago Journal Rank is an indicator, which measures the scientific influence of journals. It considers the number of citations received by a journal and the importance of the journals from where these citations come.

What is advances in Applied Energy?

Advances in Applied Energy is an open access journal that publishes cutting-edge applied research on all aspects of energy innovation that bridge the gaps between research, development, and implementation. The journal is a companion journal to the highly regarded journal Applied Energy . Advances.

What is impact if 2023 of Applied Energy?

The impact IF, also denoted as Journal impact score (JIS), of an academic journal is a measure of the yearly average number of citations to recent articles published in that journal. It is based on Scopus data. Impact IF 2023 of Applied Energy is 11.46. If the same downward trend persists, Impact IF may fall in 2024 as well.

What is the h-index of Applied Energy Journal (SJR)?

SJR acts as an alternative to the Journal Impact Factor (or an average number of citations received in last 2 years). This journal has an h-index of 292. The best quartile for this journal is Q1. The ISSN of Applied Energy journal is 18729118, 03062619. An International Standard Serial Number (ISSN) is a unique code of 8 digits.

## Journal of applied energy impact factor

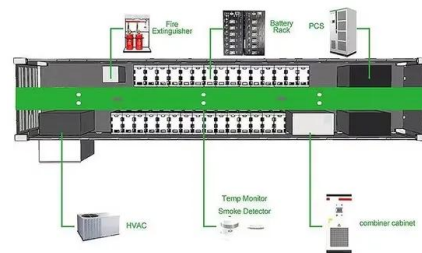

### Applied Energy 2023-2024??????-??????

Applied Energy provides a forum for information on innovation, research, development and demonstration in the areas of energy conversion and conservation, the optimal use of energy ...

### Applied Catalysis B: Environmental

SJR acts as an alternative to the Journal Impact Factor (or an average number of citations received in last 2 years). This journal has an h-index of 328. The best quartile for this journal is Q1. The ISSN of Applied Catalysis B: Environmental journal is .

### **International Journal of Applied Power Engineering (IJAPE)**

International Journal of Applied Power Engineering (IJAPE), ISSN 2252-8792 focuses on the applied works in the areas of power generation, transmission and distribution, sustainable energy, applications of power control in large power systems, etc. The main

### **Applied Energy**

The latest impact score (IS) of the Applied Energy is 12.70 is computed in the year 2023 as per its definition and based on Scopus data. 12.70 It is increased by a factor of around 1.3, and the percentage change is 11.4% compared to the preceding year 2021, indicating a rising

trend.

### **Applied Catalysis B: Environment and Energy , Journal**

Read the latest articles of Applied Catalysis B: Environment and Energy at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature Applied Catalysis B: Environment and Energy warmly welcomes original, innovative, and high-impact contributions within the realm encompassing thermo-, electro-, and photocatalysis to advance clean energy and provide ...

### **Applied Solar Energy (English translation of Geliotekhnika)**

The Impact IF 2023 of Applied Solar Energy (English translation of Geliotekhnika) is 1.53, which is computed in 2024 as per its definition. Applied Solar Energy (English translation of Geliotekhnika) IF is increased by a factor of 0.53 and approximate percentage change is 53% when compared to preceding year 2022, which shows a rising trend.

### **Applied Energy**

Discover the latest ranking, metrics and journal information for Applied Energy Top authors and change over time The top authors publishing in Applied Energy (based on the number of publications) are: S.D. Probert (374 papers) absent at the last edition, Jinyue Yan (163

papers) published 2 papers at the last edition, 8 less than at the previous edition,

### Applied Energy impact factor, indexing, ranking (2024)

The latest impact factor of applied energy is 10.1 which is recently updated in June, 2024. The impact factor (IF) is a measure of the frequency with which the average article in a journal has ...

- Voltage range: 91.2-947.2V
- >6000 cycles (100%DOD)
- Rated battery capacity: 216KWH (customizable)
- EMS communication: 4G/CAN/RS485

### [Subscribe to Applied Energy](#)

Applied Energy provides a forum for information on research, innovation, development, and demonstration in the areas of energy conversion and conservation, the optimal use of energy resources, analysis and optimization of energy processes, multi-energy systems, mitigation of environmental pollutants through sustainable, secure, efficient energy systems, and fair and ...

### [Home , Journal of Applied Electrochemistry](#)

The Journal of Applied Electrochemistry is the leading journal on technology-oriented aspects of electrochemistry, emphasizing the application of electrochemistry to technological development and practice. The broad range of technologies covered includes energy

- Product Model**

### Applied Solar Energy (English translation of Geliotekhnika)

Applied Solar Energy covers main lines of investigations and developments on solar energy conversion and use three and four years have been cited in the current year. The two years line is equivalent to journal impact factor (Thomson Reuters) metric. 2000

[Advances in Applied Energy , Journal](#)

Read the latest articles of Advances in Applied Energy at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature Advances in Applied Energy is an open access journal that publishes cutting-edge applied research on all aspects of energy innovation that bridge the gaps between research, development, and implementation.

**Journal of Applied Polymer Science , Wiley Online Library**

Journal of Applied Polymer Science, part of Wiley's polymer journals portfolio, is the largest scientific publication of quality research in polymer science. We publish research articles, reviews, comments and perspectives relating to all applications of polymers, including membranes, energy conversion and storage, and biomedical implants as well as all types of polymeric materials.

[APPLIED ENERGY Impact factor 2024](#)

The latest impact factor of APPLIED ENERGY and all the other Web of Science journals is released on 20th June 2024 by Clarivate. Through this web page, researchers can check the impact factor, total citation, journal quartile, and journal aim & scope.

[ACS Applied Energy Materials](#)

SJR acts as an alternative to the Journal Impact Factor (or an average number of citations received in last 2 years). This journal has an h-index of 87. The best quartile for this journal is Q1. The ISSN of ACS Applied Energy Materials journal is 25740962
