

Journal of renewable energy research

Journal of renewable energy research

Renewable Energy , Journal , ScienceDirect by Elsevier

Renewable Energy is an international, multi-disciplinary journal in renewable energy engineering and research. The journal aims to be a leading peer-reviewed platform and an authoritative ...

[NTU Journal of Renewable Energy](#)

Experimental Investigation of Solar Air Heater with Energy Storage Unit Abdulrahman A. Mahmood, Ahmed Mustaffa Saleem 73-83 PDF A Review of Single Phase Transformer-less Inverter Topologies for Grid-tied Photovoltaic System and Control Strategy Methods

Sustainable Integration of Green Hydrogen in Renewable Energy ...

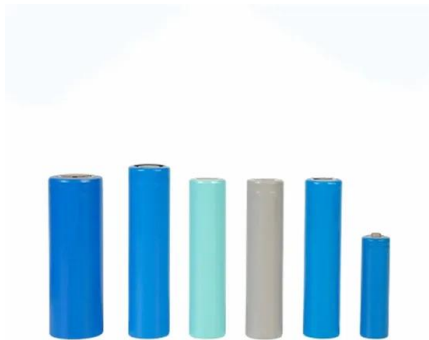

Reliable energy supply with diversified energy sources: Hybrid renewable systems typically combine multiple energy sources, such as wind turbines, solar PV panels, and energy storage. This diversification helps ensure a more reliable energy supply, as one source can compensate for the intermittency of another

The effect of renewable energy incorporation on power grid ...

Contemporary proliferation of renewable power generation is causing an overhaul in the topology, composition, and dynamics of electrical grids. These low-output, intermittent generators

are widely distributed throughout the grid, including at the household level. It is

International Journal of Energy Research Volume 43, Issue 11 p. 5621-5658 REVIEW PAPER Innovative methodologies in renewable energy: A review Zekâi Sen, Corresponding Author

[IET Renewable Power Generation](#)

IET Renewable Power Generation is a fully open access renewable energy journal publishing new research, development and applications of renewable power generation. New Special Issue Editor We are pleased to announce that Panayiotis (Panos) Moutis, North

ESS

Geophysical constraints on the reliability of solar and wind

Using 39 years of hourly reanalysis data (1980-2018), we analyze the ability of solar and wind resources to meet electricity demand in 42 countries, varying the hypothetical ...

Renewable and Sustainable Energy Reviews , Journal

Read the latest articles of Renewable and Sustainable Energy Reviews at ScienceDirect , Elsevier's leading platform of peer-reviewed scholarly literature The mission of Renewable and Sustainable Energy Reviews is to communicate the most interesting and relevant critical thinking in renewable and sustainable energy in order to bring together the research community, the ...

[International Journal of Sustainable Energy](#)

*Please note that the International Journal of Sustainable Energy converted to a full Open Access journal from Volume 42 (2023). Previous volumes will continue to provide access through a Pay to Read model. The International Journal of Sustainable Energy publishes the latest research on the science and engineering of sustainable energy systems.

[Renewable Energies: Sage Journals](#)

This journal publishes robust research across renewable energies, including solar photovoltaic, solar thermal, wind, hydraulic, biomass, geothermal, biogas, and Renewable Energies is a scientific journal whose main goal is to be a reference for publishing the more recent advances in renewable energies, including solar photovoltaic, solar thermal, wind, hydraulic, ...

Accessibility, affordability, and efficiency of clean energy: a review

Clean, affordable, and efficient energy sources are inevitable for a sustainable world. Energy crisis, especially the poor access and affordability, demand-supply mismatches, energy inequality, and high dependence on non-renewable energy sources, are the challenges

before the attainment of clean energy goals for sustainable development. The 5-year review ...

A comprehensive study of renewable energy sources

The aim of this review paper is to understand and study further the current RE technologies such as solar energy, hydro energy, wind energy, bioenergy, geothermal energy, ...

Overview

Journal of Renewable Energy is a peer-reviewed, Open Access journal that publishes papers relating to the science and technology of energy generation, distribution, storage, and management. It also publishes studies into the environmental, societal, and economic impacts of renewable energy use and policy.

Guide for authors

Renewable Energy considers for publication: original scientific or engineering research papers concerned with any aspect of renewable energy research, measurement, development or application, and invited reviews looking at the state-of-the-art of a particular topic

[Frontiers in Energy Research](#)

1 ??· Explores sustainable and environmental developments in energy. It focuses on technological advances supporting Sustainable Development Goal 7: access to affordable, reliable, sustainable and modern Author guidelines Ready to publish? Check out our author

International Journal of Renewable Energy Research (IJRER)

The International Journal of Renewable Energy Research (IJRER) seeks to promote and disseminate knowledge of the various topics and technologies of renewable ...

Journal of Renewable and Sustainable Energy , AIP Publishing

The Journal of Renewable and Sustainable Energy is an interdisciplinary journal covering specific areas of renewable and sustainable energy relevant to the physical science and engineering ...

International Journal of Energy Research: Vol 2024, No 1

International Journal of Energy Research, 9895219 First Published: 28 August 2024 This article retracts the following:,, Full text PDF References Research Article

Renewable energy

Renewable energy is energy that comes from sources that are readily replenishable on short-timescales. Examples of these are solar radiation, wind, and biomass. Electrochemical reduction of carbon

Assessing the impact of energy efficiency and renewable energy ...

With the spread of environmental pollution, environmental recovery has turned into a critical goal of governments. Energy efficiency and the use of renewable energy are two essential solutions to control the emission of greenhouse gases. However, the research on these effective tools in reducing greenhouse gas emissions at macro and systemic levels in the ...

International Journal of Renewable Energy Resources

IJRER (ISSN 2289-1846) accepts original research papers or any other original contribution in the form of reviews and report on new concepts promotes innovation, papers of a tutorial nature and a general exchange of news, views and new books on the above

Journal of Asian Energy Studies

Journal of Asian Energy Studies (JAES) is the official journal of the Asian Energy Studies Centre (AESC) at Hong Kong Baptist University (HKBU). JAES publishes high-quality original ...

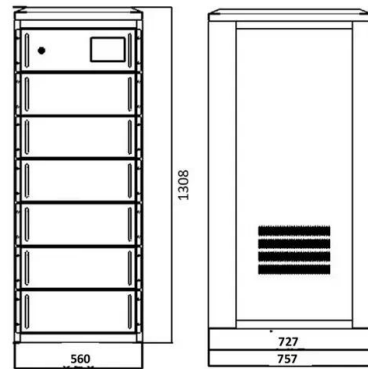

Journal of Energy

Journal of Energy publishes research relating to the science and technology of energy generation, distribution, storage, and management. It also covers the environmental, societal and economic impacts of energy use and policy.

[Journal of Renewable Energy: Vol 2024, No 1](#)

Regulatory Imperatives for Renewable Energy: South African ...

INTRODUCTION The entrenchment of conventional fossil fuels was accomplished by a legal system that legitimized and perpetuated their domination. Footnote 1 In order to dislodge that status quo, energy law and current reforms to encourage renewable energy in South Africa are not articulated within a nuanced regulatory theoretical foundation. . Targeted legal regulation ...

Home , Materials for Renewable and Sustainable Energy

Materials for Renewable and Sustainable Energy is an open access journal, focusing on research for renewable and sustainable energy technologies. Topics include renewable energy storage and conversion, energy saving, and more. Indexed in the Web of Science

International Journal of Renewable Energy Research (IJRER)

The International Journal of Renewable Energy Research (IJRER) seeks to promote and disseminate knowledge of the various topics and technologies of renewable (green) energy resources. The journal aims to present to the international community important results of work in the fields of renewable energy research, development, application, or design.

Climate change impacts on renewable energy supply

Renewable energy resources, which depend on climate, may be susceptible to future climate change. Here we use climate and integrated assessment models to estimate this effect on key renewables

Geophysical constraints on the reliability of solar and wind

Assuming perfect transmission and annual generation equal to annual demand, but no energy storage, we find the most reliable renewable electricity systems are wind-heavy and satisfy countries

The role of renewable energy in the global energy transformation

This paper explores the technical and economic characteristics of an accelerated energy transition to 2050, using new datasets for renewable energy. The analysis indicates ...

Clean energy can fuel the future -- and make the world healthier

Renewable energy's share of total global energy consumption was just 19.1% in 2020, according to the latest UN tracking report, but one-third of that came from burning resources such as wood.

Towards Sustainable Energy: A Systematic Review of Renewable Energy

The use of renewable energy resources, such as solar, wind, and biomass will not diminish their availability. Sunlight being a constant source of energy is used to meet the ever-increasing energy need. This review discusses the world's energy needs, renewable energy technologies for domestic use, and highlights public opinions on renewable energy. A ...

Renewable and Sustainable Energy Transition , Journal

The journal considers articles on the following themes, provided the link to renewable and sustainable energy is clear and thoroughly examined: Energy system transitions, including but not limited to sector interactions, whole systems analysis at scales from local to global, socio-technical and socio-economic aspects, feasibility, policy and regulatory and market ...
