KSRSS (Kerbin-Sized Real Solar System) Install Issue

Hi! So, I recently discovered Real Solar System (RSS) but I don't know the first thing about Realism Overhaul (RO). So I decided to try KSRSS instead. However, even though I have all the right prerequisite mods for it to work (I think), when I launch the game it tells

Half Size Real Solar System (5x Kerbin scale) HalfRSS is a mod that uses the great work from @NathanKell and creates our Real Solar System in a smaller scale in KSP. At half the size of the RSS, HalfRSS is still 5 times larger than stock KSP and provides a huge challenge to players, but can be achieved with stock parts.

Is it possible to combine Parallax with KSRSS? : ...

I've seen pictures of parallax and the kerbal sized real solar system mod installed together. The results were a feast to my eyes. However, I'm unable to find any info on how to install both mods correctly. Has anybody been able to

Stock KSP to Real solar system / Realism overhaul

Introduction Hello all! This is going to be a super long post. There's a TL;DR, but if you're truly interested in RSS the full guide should hopefully be useful. Some of you may be aware of the mod Real solar system, which changes the Kerbin system to our own, and its companion mod Realism overhaul which makes the game more realistic in a variety of ways.
