

Latest case of the theft of photovoltaic panels in Weining

Overview

Taylor, presenting at a Solar Crime Open Day event organized by site security company DeterTech and London-based asset manager Schroders, reported a 48% rise in cabling and solar panel theft from solar sites between 2021.

Copper hit a record GBP 7,500 per ton in February, according to Richie Iwanoff, head of telecommunications company British Telecom's.

The rise of organized crime raids has been accompanied by more opportunistic thefts in the UK, of panels for resale. "The cost-of-living crisis has worsened matters and there has been a big rise in rural crime," says Oakley, of.

Trade body Solar Energy UK confirms the picture and Taylor and Oakley emphasized the need for site operators to report even trivial.

"We know some of the stolen property, stolen panels, are also being sold rather brashly and brazenly on social media," said Taylor. "When you consider there are 1.4 million solar panels in a domestic setting in the UK, and.

Are solar panels causing a rise in solar crime?

A rise in solar crime means eco-conscious homeowners and farmers who have diversified into renewables should check their security and insurance. The warning comes after police figures revealed a 48 per cent rise in solar panel and cabling theft from 2021 to 2022.¹.

Are solar panels being stolen in the UK?

That figure – reported by Detective Superintendent James Taylor, head of UK serious organized acquisitive crime unit Opal – included a rise in small-scale thefts of solar panels as rising energy bills and the cost-of-living crisis bite. And the UK experience is far from unique.

Is there a rise in solar crime in the UK?

Police in the UK observed a 93% rise in reports of solar-related crimes from 2021 to 2022. That figure – reported by Detective Superintendent James

Taylor, head of UK serious organized acquisitive crime unit Opal – included a rise in small-scale thefts of solar panels as rising energy bills and the cost-of-living crisis bite.

Is solar theft a problem in the UK?

Rural theft has long been an issue in the UK. It is a sinister practice, with repercussions that are as much emotional, as they are commercial. After all, for a small farm, solar panels are a huge investment. Not only that, but if solar theft is not brought under control, it will delay the country from reaching its net zero goals.

Is there a rise in solar crime in 2021 & 2022?

Taylor, presenting at a Solar Crime Open Day event organized by site security company DeterTech and London-based asset manager Schroders, reported a 48% rise in cabling and solar panel theft from solar sites between 2021 and 2022.

How much does a solar theft cost?

Strecke says European solar thefts typically cause €60,000 (\$63,900) of damage, when repairs and loss of business are factored in. “Solar crime is on the increase,” says Rachael Oakley, director of crime intelligence at Telford-based DeterTech, formally known as SmartWater Group thanks to its product-marking technology.
