

# **Latest price list of photovoltaic power station panels**

## Overview

---

The average solar panel cost in the U.S. ranges between \$17,350 and \$38,000, depending on where you live and before applying incentives.

The average cost of solar panels as of Spring 2024 was \$3.40 per watt, excluding financing.

According to our solar experts, solar panels cost about \$21,816 to install in the United States, on average, based on a 7.2 kilowatt (kW) solar system. How much do solar panels cost?

But the average solar panel system of 3.5kWp will cost around £7,000 to install, according to estimates from the Energy Saving Trust. The exact cost will vary, depending on the size of your home and how much electricity you want to produce. See how much you can expect to pay. Find out: are solar panels worth it?

How much does a solar PV system cost?

Here we have assumed each panel is 430 Watts, and can produce roughly 345kWh of energy per year. Basing our analysis of real-life pricing in 2024, we found that a system with 12 PV panels would cost around £6,900, and prices go up and down from there depending on the panel count.

How much does a photovoltaic system cost in the UK?

- A household in the UK installs a 5kW photovoltaic system costing £8000 (average cost), which would generate approximately 4320 kWh of electricity annually.
- The annual SEG income in the UK would be £324 per annum.

How much does a solar system cost in 2024?

A fully-installed and MCS-certified solar panel system with 4kWh of solar power costs around £7,000 in 2024. That's without a battery—add a home battery to your system and your cost will increase by roughly £2,500 for a 5kWh battery, bringing the total cost to around £9,500.

How much does a 4KW Solar System cost?

The 4kW solar panel system costs between £6,000 and £7,000, requires around 16 panels and covers approximately 29 square metres of your roof. A 3kW system, often used for households of two to three, costs between £3,000 and £5,000, needs around 12 panels and takes up about 22 square metres of roof space.

How much does solar panel maintenance cost?

The maintenance of solar panels would cost around £21.24 to £24.99 per month, depending on the service, repair, and health checks your solar panel system needs. Solar panel systems are low-maintenance; you just need to do routine checks and regular light cleaning.
