

Legacy solar power

Overview

Who is legacy solar?

Join hands with Legacy Solar, the paradigm of solar energy companies in Illinois, and become a part of the sustainable energy revolution. Secure your energy future, eliminate uncertainty from utility price hikes, and contribute to a cleaner, greener, and better Illinois. Industry-leading solar for your home or business.

Why should you choose legacy solar?

Legacy Solar has the level of accreditation in the industry because of our mastery of the solar process. We are the leading solar provider with a highly-trained team, including experienced solar installers, dedicated to providing an efficient and reliable solar system to each of our customers.

Why is LGCY Power a top rated solar power company?

It's not an accident that LGCY Power is the top-rated solar power company in the U.S., with thousands of ecstatic customers who now enjoy lower energy bills. In fact, establishing the LGCY Power difference was part of our plan from the very beginning, as it reflects our values, leadership, and dictates everything else we do.

What is LGCY Solar?

LGCY Solar is a Utah-based company founded by Doug Robinson & Luke Toone in 2014 as a customer acquisition company for residential solar and worked exclusively with Sunrun for five years. It has since grown to a presence in 30 states with partnerships that include BrightPlanet, Sunrun, and more.

Who is LGCY Power?

This is where LGCY Power's team of solar specialists comes in. We'll be with you every step of the way to make sure you not only find the perfect solar solution for your property, but also make the most out of your investment for

a long, long time.

How many megawatts does LGCY Power have in 2021?

LGCY Power has generated an additional 22MW of contracts in July 2021. To date, they have been responsible for the deployment of more than 300 megawatts of residential solar.
