

Longi 365W photovoltaic panel price

Overview

Great power output and greater energy yields. Outstanding power output in low irradiance conditions, such as dawn, dusk and cloudy days. Positive tolerance of maximal power guaranteed (0~ 5W).

A low 0.55% annual degradation rate after an initial first-year degradation of less than 2% , which is superior to conventional modules.

The module's frame design provides easy installation and ensures robust mechanical strength. It is able to withhold a heavy snow load up to 5400 Pa and wind loads up to 2400 Pa. Added.

This module comes with a 10-year product warranty on materials and processing and a 25-year extra linear power output warranty.

Cost: Starting from as little as £107.40 per panel, Longi HiMo4 solar panels are very affordable, with good performance to match the solar panel cost. Who makes LONGi Solar panels?

LONGi solar panels are made by a wholly-owned subsidiary of the Chinese company, LONGi Group, LONGi Solar.

What is Longi LR6-72PH-365M 365W PV module?

Longi LR6-72PH-365M 365W PV Module is a Hi-MO1 high efficiency, low LID monocrystalline 72-cell module, with excellent electrical and solid structural performance. These modules feature clear 45 mm frames with white back sheets, MC4 connectors, and industry-standard -0/ 5W sorting.

Are LONGi Solar panels worth it?

Two downsides of LONGi solar panels include their high temperature coefficient and the less-than-impressive product warranty, but it's ultimately up to you to decide whether or not these (somewhat minor) factors are a dealbreaker.

What is the performance of LONGi Solar panels?

The conversion efficiency is up to 22.3% and output power ratings in mass production reaches 570W. The Hi-MO N was designed for applications on surfaces with high reflections, high temperature, limited land and high labour costs. LONGi solar panels come with an industry standard warranty of 10-year product and 25-year linear performance.

Why should you choose LONGi Solar panels?

LONGi supplies more than 30GW of high-efficiency solar wafers and modules worldwide yearly, which equates to about a quarter of the entire global demand. Solar installers all over the world rely on LONGi panels because they are a bankable brand that keeps sustainability at its core.

Why is LONGi the most valuable solar company in the world?

With innovation and sustainable development as their two guiding values, they have become the most valuable solar company worldwide. LONGi supplies more than 30GW of high-efficiency solar wafers and modules worldwide yearly, which equates to about a quarter of the entire global demand.
