### [Specialty Switches > MacLean Power Systems](#)

The LineBOSS NBS, Nielsen Bypass Switch, was originally designed in 1972 by Carl Nielsen, P.E. to allow non-interrupting bypassing and energizing (cut-in or cut-out) fixed booster transformers. The NBS switch now provides continuous power to load-side

### Station Post

MPS offers polymer Station Posts for line voltages class of 7.5 kV - 500 kV. These Station Posts are designed to ANSI C29.19 standards. These polymer Station Post meet the mechanical heights and comparable electrical performance of their equivalent porcelain TR numbers in ANSI C29.9, meaning they can be direct replacements for porcelain Station Posts in most cases.
