

# Millennium Solar Power

## Overview

---

Solar Millennium was a German company globally active in the renewable energy sector founded in 1998 in Erlangen, Germany, which is specialized in the designing and implementation of solar thermal power plants. The main activities are site selection, project development, planning, design and construction of.

The company was founded in October 1998 as 'Solar Century Management GmbH' by businessmen . This company was renamed in March 1999, as 'Solar Millennium GmbH'. The corporation was created.

The first large-scale power plant project by Solar Millennium is the complex, which consists of three immediately adjacent, essentially identical parabolic trough power plants, Andasol 1 to 3 in southern Spain. In June 2006 the construction of Andasol.

In May 2010, the merger of its technology subsidiary Flagsol GmbH () and participation in the power plant joint venture of MAN Solar Millennium GmbH () has been completed. With 74.9 percent of the shares, Solar Millennium is still in charge of the joint.

The shares of Solar Millennium AG are traded in Germany on the open market since 27 July 2005. They are traded, inter alia, on the and in the automated trading system and on .

In December 2011, the company announced it was bankrupt and undergoing insolvency proceedings. .
