

Mo solar bill to help rea s and utility companies

Overview

Missouri will receive \$156 million under the federal Inflation Reduction Act's Solar for All program. President Joe Biden signed the act into law in August, 2022. The Missouri funds are earmarked for helping low-income residents benefit from solar, either from their rooftop or from community solar projects, according to Renew Missouri. Can a Missouri homeowner get a solar tax credit?

As a Missouri homeowner, you have access to some great incentives that can substantially improve your return on investing in solar panels. The federal solar tax credit is one of the most impactful ways to bring down your solar costs.

Does Missouri have solar incentives?

Missouri currently has solar incentives available that can make converting to solar energy more appealing for residents. However, Missouri does not currently have an SREC market, so these credits are not available to solar customers in the area.

Do solar companies add property tax in Missouri?

In Missouri, solar companies do not add property taxes on the additional value of solar installations. That's right, you will not pay a dime in taxes on all that added value! 42 solar companies in Missouri provide pricing on SolarReviews. Here are the best rated companies near you.

Does Missouri have a solar rebate program?

Missouri has a statewide rebate program for solar installations through several of its largest electric utility companies. Installing solar panels on your home adds value to it.
