

Monolithic power system

Overview

Monolithic Power Systems is headquartered in Kirkland, Washington. The company designs, develops, and markets for communications, storage and computing, consumer electronics, industrial, and automotive markets, in addition to supporting the electrification of transportation. Monolithic Power Systems markets its products through third-party distributors and value-added resellers.

[Monolithic Power Systems Aktie](#)

Monolithic Power Systems ist im Bereich der Elektronik tätig. Die Kernkompetenzen liegen in der Entwicklung, Herstellung und Vermarktung von integrierten Schaltkreisen. Diese integrierten Schaltkreise, auch bekannt als Power Solutions, werden in verschiedenen elektronischen Geräten

verwendet, um die Stromversorgung zu regeln und die Energieeffizienz zu verbessern.

Step Down (Buck) Converters

MPS step down switching regulators offer wide input voltage, ranging from 2V to 100V with load currents up to 30A. These converters are designed to address a wide range of requirements and applications. Utilizing MPS' latest process technology, many MPS buck
