OUTDOOR BATTERY CABINET

Overview

What is a multi point locking system (MPLS)?

Multi-Point Locking Systems (MPLS) are advanced locking mechanisms designed to enhance security by engaging the door or enclosure at multiple points along its frame. Unlike traditional locks that secure a door at a single point, MPLS typically engage at three or more points, often at the top, middle, and bottom.

What is a mint multipoint locking device?

Thanks to the 20-mm deadbolt ejector and additional bolt for door elements, the MINT multipoint locking device provides break-in protection up to Resistance Class 4. The locks are ideal for external doors in schools, commercial buildings, hotels, server rooms and locking doors in residential buildings with high security demands.

Who makes multipoint door locks?

Our Multipoint Door Locks are crafted by experts in the field, like ERA, Yale and GU Ferco, whether you're looking for a Multipoint Door Lock Kit, Dual Spindle Door Locks, or even secure Multipoint Door Handles.

What is a glutz multipoint locking device?

Multipoint locking devices from Glutz fulfil the highest security demands and provide protection against burglary and fire. The MINT family of multipoint locking devices comprises universal and interchangeable locks that cover all applications. Simple, key-operated doors are covered by the Treplane, MINT Combi or MINT keys.

Why should you choose a multi-cam locking system?

The Multi-Cam Locking Systems lock doors of larger enclosures securely and consistently over the entire height of the door. This saves time when it counts, and impresses with maximum ease of operation. Convince yourself of our

locking solutions - suitable for your application. 1.) Multi-Cam Locking Systems without compression.

Why should you choose a multi-point lock?

Instead of locking each locking point individually with a quarter turn, this multi-point lock offers increased operating convenience due to a single external operation. Most customers choose a solution with a comfortable swing handle for this purpose. A wide range of operating options
