

# **National Demolition Subsidy for Solar Power Generation**

## Overview

---

Can solar power help decarbonise the UK energy sector?

Co-written by Matthew Fox and Toby Yeates of Pinsent Masons. The central role envisaged for solar power generation in supporting the decarbonisation of the UK energy sector is reflected in a draft revised planning policy designed to shape decision making on major renewable energy projects.

Could a new £500m fund double subsidy-free solar power in the UK?

London, December 1st, 2021 – The UK Infrastructure Bank has made its first private sector transaction, which will help catalyse a new £500m fund with NextEnergy Capital that could double the amount of subsidy-free solar power in the UK.

Can solar projects be promoted under the NPS?

This has meant that, while utility scale solar projects have been able to be promoted under the NPS for energy infrastructure, developers have had to follow a more protracted route to gaining planning permission: developers have had to rely on the general policy support within EN-1 for their solar projects.

Are unsubsidised new-build solar projects a good investment?

Unsubsidised new-build solar projects represent an attractive investment opportunity, both in financial investment returns and in the pursuit of societal objectives such as addressing climate change and improving biodiversity in the UK.

Will new solar homes get a payment from suppliers?

New solar homes and businesses creating and exporting electricity to the grid will be guaranteed a payment from suppliers under new laws to be introduced by the government this week (Monday 10 June).

What is the UK's largest subsidy-free solar investment fund?

It will be the largest subsidy-free solar investment fund in the UK, managed by NextEnergy Capital (NEC) a global leader in the solar infrastructure sector. Once the fund is fully operational it will have an expected generation capacity of c.1 gigawatt of power from around 30 solar farms across the UK.
