## Overview

---

In reality, the cost of solar panels depends on a variety of factors, including the following: 1. The type of solar panels you install. 2. The brand of the solar panels. 3. The total number of solar panels you are installing.

Please bear in mind that a complete solar panel installation does not simply include the costs of the solar panels themselves, but also includes the.

The average cost of a solar panel in the UK based on a 350-watt panel is currently between £500 and £800. However, please bear in mind that this is.

Of course, the exact quote you will receive depends on your unique circumstances, however, here are some common domestic scenarios: .

If you want to add a solar battery i.e. solar battery storage onto your installation this will cost extra. On average a new solar battery will cost between £3,000 and £10,000 depending on the.
