

Oberon photovoltaic project

Overview

The Oberon solar project development will include a solar PV electricity generating station, battery energy storage facility, electrical substation, and a generation-tie (gen-tie) line. Th.

The Oberon solar project will include infrastructure facilities such as interior access roads, an approximately 3,000ft² operation and maintenance (O&M) building, supervis.

The electricity generated by the Oberon solar project will be transmitted to the existing 500kV Red Bluff substation near the town of Desert Center, through a new 500kV gen-tie tra.

Intersect Power secured total funding commitments of \$2.6bn in November 2021 to construct and operate six solar projects, including the Oberon project. The funding included constru.

The Oberon solar project will be located on BLM-administered land, near the Desert Center in eastern Riverside County, California, US. The project will occupy a total area of approximately 5,000 acres, with its facilities spanning about 2,700 acres of the overall site.

The Oberon solar project development will include a solar PV electricity generating station, battery energy storage facility, electrical substation, and a generation-tie (gen-tie) line. The project.

The Oberon solar project will include infrastructure facilities such as interior access roads, an approximately 3,000ft² operation and maintenance (O&M) building, supervisory.

Intersect Power secured total funding commitments of \$2.6bn in November 2021 to construct and operate six solar projects, including the Oberon project. The funding included construction financing, tax equity, land financing and portfolio level term debt. Existing Intersect.

The electricity generated by the Oberon solar project will be transmitted to the existing 500kV Red Bluff substation near the town of Desert Center, through a new 500kV gen-tie transmission.

Oberon photovoltaic project

BLM announces Oberon Solar Project in Riverside ...

During remarks at the Western Governors Association Winter Meeting Nov. 6, Secretary of the Interior Deb Haaland announced the Oberon Solar Project, a 500-megawatt photovoltaic facility near Desert Center in ...

BLM OKs construction of massive Calif. solar project

The Biden administration today touted the Oberon photovoltaic solar project as a "milestone" in the administration's ongoing efforts to permit 25,000 MW of solar, wind and geothermal power projects by 2025, as well as a broader goal to wean the nation's power

BLM approves start of construction of Oberon solar project

The Notice to Proceed, issued by the BLM Palm Springs - South Coast Field Office, authorizes Oberon Solar LLC to begin full construction for the project. The project will ...

Oberon Solar Project , Solar Farm in Desert Center, CA

Summary Information Plant Name Oberon Solar Project (65734) Plant Address 27200 Rice Road, Desert Center, CA 92239 Utility IP Oberon LLC (64971) Latitude, Longitude 33.72899, -115.38238 Generation Dates on File Sep 2023 to

Oberon Renewable Energy Project Final Environmental Impact ...

2021030426 - 2021-11-12 - FIN - Oberon Renewable Energy Project Final Environmental Impact Report IP Oberon, LLC, a subsidiary of Intersect Power, LLC, proposes to construct, operate, maintain, and decommission a 500 MW solar photovoltaic (PV) electricity

Interior Department Advances Three Solar Projects in California

In the coming days, the BLM expects to approve the Oberon solar project, a 500-megawatt photovoltaic solar project on 2,700 acres of public lands that could generate up to 500 megawatts of renewable energy and power nearly 142,000 homes.

[Oberon Renewable Energy Project](#)

The proposed Oberon Renewable Energy Project would interconnect to Southern California Edison's (SCE) 500 kV Red Bluff Substation via one new 500 kV gen-tie line. The proposed 500-kV gen-tie line would be located within one 175-foot ROW, running approximately 0.5 mile southeast from the solar facility, across BLM-administered land, to the ...

[Oberon Solar and Storage Project, USA](#)

The Oberon Solar and Storage project, also known as the Oberon Renewable Energy project, is constructed, operated and maintained by clean energy company Intersect Power. The project comprises a solar power ...

The Bureau of Land Management welcomes public input for a ...

IP Land Holdings, LLC, seeks authorization to construct the Oberon Solar Project on 4,700-acres of BLM-managed public lands and would create an estimated 750 temporary jobs and eight permanent jobs, and generate enough clean electricity to power 200,000

BLM approves 500 MW Oberon Solar Project on ...

Last week the BLM Palm Springs South Coast Field Office authorized Oberon Solar LLC to begin full construction of Oberon 1 and II, which together will generate up to 500 MW or enough to power approximately ...

BLM welcomes public input on the Oberon Solar project

The proposed Oberon Solar project would be located within areas analyzed and identified as suitable for renewable energy development as part of BLM's Desert Renewable Energy Conservation Plan. The BLM will engage with tribal governments, local communities, state regulators, industry, and other Federal agencies as it evaluates this project.
