

Over 100 solar companies gone bankrupt

Overview

US investment bank Roth Capital Partners reported that over 100 US residential solar companies collapsed in 2023, six times the total of the previous three years. The firm predicts that more than 100 additional US solar companies are at risk of collapse. Will there be more solar bankruptcies this year?

Analysts are predicting even more solar bankruptcies this year as high interest rates and changing policies about how much people can get compensated for their solar power dampen consumer enthusiasm. Wood Mackenzie says that residential installations will shrink by about 14% this year. Read more: [The Solar Power Industry Is in Trouble](#).

What happens if a solar company goes bankrupt?

If the company goes bankrupt, other companies could take over management of owners' systems. But in some cases in which solar companies have gone bankrupt, consumers are still waiting, sometimes with broken systems, to find out what comes next. SunPower, of the nation's biggest solar installers, is no longer selling leases.

Which solar companies have failed this year?

Dozens of other solar firms have failed this year as well, including Infinity Energy, Solcius, and Kayo Energy. "We pretty much have a \$70,000 roof ornament at this point," says Jasmine Hendrickson, who had a system installed by Pink Energy a week before the company went out of business.

Will SunPower's bankruptcy affect the residential solar market?

Roth, of MKM, sees SunPower's struggles as a potential positive for other big solar companies like SunRun and Sunnova. But there's also a chance that SunPower's troubles could further shake the residential solar market. If it falls into bankruptcy, its financials will be closely examined.

Why did solar contractors go out of business in 2023?

In 2023, the solar industry witnessed a significant number of contractors going out of business, a trend fueled by a confluence of economic and policy-driven factors. : The Federal Reserve raised interest rates to combat inflation, inadvertently affecting the solar sector.

Is the solar industry on the verge of collapsing?

Read More: [The Rooftop Solar Industry Could Be on the Verge of Collapse](#). SunPower is one of the top five or 10 residential solar installers in the nation, according to Pol Lezcano, an analyst at BloombergNEF. Its struggles also highlight why the residential solar industry is struggling in the U.S., Lezcano says.
