

# **Panasonic solar company**

## Overview

---

Does Panasonic make solar panels?

Panasonic no longer manufactures its solar panels in-house. Instead, it relies on an original equipment manufacturer (OEM) for its panels. And while Panasonic's 25-year efficiency warranty is good, you'll pay more; some of its higher-output solar panels cost more than \$600 each. Related article [How do solar panels work?](#)

Solar energy explained.

Are Panasonic solar panels a good brand?

Panasonic is a household name that entered the solar industry in 1975 as one of the world's largest consumer electronics manufacturers. Panasonic solar panels are popular among EnergySage shoppers and installers - they're the third most quoted brand in 2023!.

Does Panasonic sell solar panels to original equipment manufacturers (OEMs)?

Photo courtesy of Western Solar - Bellingham, WA In 2021, Panasonic made a big decision — to contract its solar panel production to original equipment manufacturers (OEMs). Two years later, the decision has allowed Panasonic to become an even better partner for installers and customers.

How much do Panasonic solar panels cost?

According to our research, panasonic solar panels cost an average of \$335.20 to \$691.27 per panel. Some models are slightly higher than industry average, but this investment can be worth it because of the panels' impressive stats.

When did Panasonic start making solar panels?

The company is one of the earliest entrants in the solar industry, having launched its first solar panel products in 1975. In 2021, Panasonic started contracting out production of its solar panels so it could work on expanding its

solar products to include battery storage and inverters.

How many solar panels does Panasonic have?

Along with quality, Panasonic has eight panel sizes, ranging from 350 watts to 430 watts. This range makes customizing Panasonic's solar panels for your home easier. And because Panasonic has an inverter, solar battery and energy management device, it's a one-stop shop for a homeowner's solar needs.
