## Overview

---

What is Patriot energy systems?

Continuous Power Anytime, Anywhere! Patriot Energy Systems has engineered Military grade fixed or transportable energy systems custom designed for your unique needs. We are not your typical roof mounted solar system. We design and manufacture transportable fast mobilized and installed solar generators. These generators produce up to 15,000 watts!.

What is a patriot power generator?

This best-selling solar generator is your “Magic Bullet” to protect you from blackouts, power failures & the crumbling electric grid. Use the Patriot Power Generator inside your home — to power a fridge, freezer, medical devices & more. It comes ready to use & never needs gas.

How much solar power does a patriot power generator have?

The Patriot Power Generator has a maximum input capacity of 240 watts of solar power. This is one of the generators biggest downfalls, as some of the best portable solar generators have input capacities of 400, 500 and up to 1000 watts of solar power input.

Is Patriot power 1800 a good solar generator?

If you are shopping for a solar generator to run large and small appliances at home, in your RV or elsewhere, the Patriot Power 1800 is not the best pick. The specs of the Patriot Power 1800 say that the solar generator has a ‘maximum of 20A @ 12V AC charging current from AC or DC circuitry’.

What is the best Patriot power generator alternative?

It's easy to see why the #1 best Patriot Power Generator alternative is the EcoFlow Delta 1800 [Base Camp Kit] - \$1,659 (click on picture to learn more) The EcoFlow Delta 1800 solar generator has TWICE as much battery capacity at 1300 watt hours vs 652 watt hours on the patriot power generator. Twice as

much battery for over \$500 less.

Does the Patriot power generator 1800 have a MPPT charge controller?

The Patriot Power Generator 1800 comes with a MPPT charge controller built into its system, which is a huge upgrade from the Patriot Power Generator 1500 model which lacked this key component.
