

Photos of stolen rooftop photovoltaic panels

Overview

Taylor, presenting at a Solar Crime Open Day event organized by site security company DeterTech and London-based asset manager Schroders, reported a 48% rise in cabling and solar panel theft from solar sites between 2021 and 2022. Speakers at the event, held in Telford, in the west of England, appealed for solar.

Copper hit a record GBP 7,500 per ton in February, according to Richie Iwanoff, head of telecommunications company British Telecom's.

Trade body Solar Energy UK confirms the picture and Taylor and Oakley emphasized the need for site operators to report even trivial incidents to help police build a bigger picture of.

"We know some of the stolen property, stolen panels, are also being sold rather brashly and brazenly on social media," said Taylor. "When you.

The rise of organized crime raids has been accompanied by more opportunistic thefts in the UK, of panels for resale. "The cost-of-living crisis has.

Are solar panels stolen?

By way of example, in August, solar panels worth approximately £10 500 were stolen from an energy farm in Northamptonshire. Solar panel theft is not limited to large scale and commercial solar farms either - homes in remote areas are also vulnerable, with thieves reportedly swiping panels from people's roofs. Why?

.

Does rooftop solar have a fraud problem?

Rooftop solar has a fraud problem. The industry is working to build back trust All this threatens the residential rooftop solar industry's impressive momentum, and some are working to repair its reputation. But what if you want to go solar now?

Are solar panels causing a rise in solar crime?

A rise in solar crime means eco-conscious homeowners and farmers who have diversified into renewables should check their security and insurance. The warning comes after police figures revealed a 48 per cent rise in solar panel and cabling theft from 2021 to 2022.¹.

Are solar panels causing a spate of theft in the UK?

This specific spate of theft has been triggered by soaring values – particularly in relation to metals and machinery – and the low supply of farm machinery worldwide. And alongside machinery, recent figures from the UK police suggest criminals have set their sights on another lucrative opportunity – solar panels.

How much property was stolen from UK solar sites last year?

Speakers at the event, held in Telford, in the west of England, appealed for solar site owners to report all incidents of criminal damage, no matter how small. Taylor said GBP 574,300 (\$691,500) worth of property was reported stolen from UK solar sites last year, but noted that the real figure is likely higher.

How much does a solar theft cost?

Strecke says European solar thefts typically cause €60,000 (\$63,900) of damage, when repairs and loss of business are factored in. “Solar crime is on the increase,” says Rachael Oakley, director of crime intelligence at Telford-based DeterTech, formally known as SmartWater Group thanks to its product-marking technology.
