

# **Photovoltaic DC lightning protection combiner box**

## Overview

---

What type of combiner box do I need for a photovoltaic system?

With surge protection (type 1/2) and cable glands for the input and output side. String combiner box for photovoltaic systems up to 1000 V DC for connecting 3 x 1 string. With surge protection (type 1/2) and cable glands for the input and output sides. String combiner box for photovoltaic systems up to 1,000 V DC for connecting 2x 1 string.

What is a PV combiner box?

It greatly simplify input wiring of DC power distribution cabinet and inverter. Realize lightning protection, short circuit protection and grounding protection. PV combiner box divided into two types: intelligent box and non-intelligent box. Intelligent PV combiner box is equipped with monitoring unit.

What is a DC combiner box?

Our DC combiner boxes offer users the possibility to integrate short-circuit and overvoltage protection, as well string monitoring solutions (I,V, T and SPD and switch isolator status), for PV systems using central inverters with PV panels in trackers and fix tilt systems.

What is a sunclix combiner box?

String combiner box for photovoltaic systems up to 1,000 V DC for connecting 3x 1 string. With surge protection (type 1/2) and SUNCLIX DC connectors for the input and output side (SUNCLIX mating connectors supplied as standard). String combiner box for photovoltaic systems up to 1,000 V DC for connecting 1x 1 string.

How do I connect the PV string combiner boxes?

To connect the PV strings, the string combiner boxes are equipped with either our SUNCLIX panel feed-throughs or with cable glands on Push-in terminal blocks. SUNCLIX connectors from Phoenix Contact and Push-in terminal blocks

combine the advantages of easy installation with reliable and maintenance-free connection.

What is a solar combiner box?

The combiner box is equipped with input terminals connected to the DC output of the individual solar panels. These terminals are designed to accommodate the positive and negative wires from each panel.
