

Photovoltaic battery panel door installation policy

Overview

Do you need planning permission to install solar panels on your roof?

An increasing number of people are investing in solar energy. More and more homes are having solar panels, or solar tiles, installed on their roofs. Of course, with such installations, the topic of planning permission and building regulations often comes to the surface.

Are solar batteries a fire hazard?

Storage batteries are an important component of many domestic solar PV installations, storing power generated during the day for use at night. To minimise the risk of batteries becoming a fire hazard, a new British Standard covering fire safety for home battery storage installations came into force on 31 March 2024.

Are solar PV installations notifiable?

To clarify, what is certain is that nearly all domestic electrical work is notifiable under Part P of the Building Regulations (see below) and a solar PV installation is nearly always notifiable electrical work.

Do solar panels comply with building regulations?

Your solar panel system must comply with building regulations in terms of structural integrity, electrical safety and fire safety. These regulations may vary depending on the size and type of the installation. It's advisable to work with accredited installers who are familiar with these requirements.

Can a solar battery be installed outside?

If outdoor installation is not possible, a suitable indoor location should be well ventilated and have suitable fire protection. It should also be noted that paragraph 6.5.7 states that the maximum capacity for outdoor solar battery installations can be double that of indoor systems – 80kWh and 40kWh, respectively.

Where can I install batteries for my solar PV system?

Voids, roof spaces or lofts. Within 2m of stored flammable materials and fuel storage tanks or cylinders. Cellars or basements that have no access to the outside of the building. If you have any concerns over where to install batteries for your solar PV system, do get in touch Tel: 01432 861047.
