

# Photovoltaic panel drawing layout design plan

## Overview

---

HD satellite imagery, AI-assisted 3D modeling and roof detection give you a clear and exact picture of the rooftop, so you can show your customer an accurate representation of what their roof will look like.

Automatic population of the rooftop using an irradiance map and shading analysis optimum placement of the solar panels, so you can deliver the best.

Get the most out of the solar system with automatic electrical design calculation providing you with the best recommendation for highly.

Smart Energy Home Ecosystem Get insight into potential household electricity savings when adding SolarEdge smart home devices to your system designs.  
Storage & Backup Plan the home energy storage and backup.

Generate accurate sales proposals, ensuring your customers get the full picture on the spot. With energy simulation, financial.
