

Photovoltaic panel horse lock

Overview

Can you use solar electric fencing on a horse?

Solar Electric Fencing. Horse Fence Kits. UK Delivery. Solar electric fencing can be the ideal solution for off-grid safety and security for horses. Why use solar horse fence kits?

Electric fencing systems require power but when it comes to paddocks and fields access to mains electricity may be a problem.

What is a jaksun® solar fence panel?

See the Jacksons Difference The Jaksun® Solar Fence Panel revolutionises the capabilities of a garden fence. Combine it with any of our 0.60m* high fence panels to create a garden fence with good aesthetics and the functionality of energy production, through the implementation of conventional solar panels.

Can jaksun solar fence panels be installed in slotted jakposts?

Jaksun Solar Fence Panels are designed to be installed in our slotted Jakposts. The Jakposts must be modified slightly, with the top part of the post centre being removed. The ends of solar fence runs should utilise intermediate posts, but each end will almost certainly need an infill piece attaching.

Are electric fences a good tool for paddock management?

When it comes to paddock management, electric fences are a good tool to use. This can be done with both permanent and mobile solutions. For example, with electric fence deployment, you can deploy a rotation system if you have multiple paddocks. With this, you ensure that the horses are regularly moved from one paddock to another.

Should you buy a solar-assist panel for your fencing unit?

Some large all-in-one fencing units are now available, but for stock farmers in search of a year-round system that takes the pressure off battery charging, it

often makes more sense to buy a solar-assist panel to work with their existing fencing unit.

Are solar-powered fencers a good idea for livestock farmers?

Putting an end to the monotonous charging and distribution of electric fencer batteries would be a boon for any livestock farmer. So, it's no surprise that interest in solar-powered energisers has been gathering momentum over the past few years.

Photovoltaic panel horse lock

Anti-theft system for photovoltaic panels over plastic fiber
