

# Photovoltaic panel installation company rankings

## Overview

---

Midlands-based Project Solar is the UK's largest solar installation company and among the most accredited and experienced, claiming to have carried out more than 45,000 installations since 2011. Feedback is overwhelmingly positive, with an average 4.6 ("excellent") from more than 4,800 customer reviews on Trustpilot.

Solar Fast is the longest-established solar company in our rundown, in business for nearly two decades since 2006. That level of experience is unusual.

If you've ever wondered how many solar panels would fit on the roof of your house, head for Heatable's online quote tool. This gives you a 3D bird's eye view of your home - and a fixed quote. You don't have to enter your name or.

London-based Egg - also known as Cracking Energy - has a proud roster of business and public sector clients, from the RAC to Swindon Borough Council. It's keen to appeal to small.

Soly is new to the UK, but brings a decade of international experience. Since its creation by two Dutch brothers in 2013, Soly has installed more.

How many solar panel installers are there in the UK?

There are over 4,000 registered solar panel installers in the UK - credit Solar Fast With over 4,000 registered installers in the UK in 2024, finding the right installer for your project can be hard work, especially on top of the cost of solar panels in the UK in 2024. So we're here to help.

Who are the best solar panel installers in the UK?

The best solar panel installers in the UK are Sunsave, Spectra Solar, J Kirby Electrical, Heat Electric Northwest, Adept Renewables, Tile Energy, Heatable, The Solar Co, Fusion8, and Home Smart Energy. These companies possess the most stringent accreditations and certifications, as well as excellent reviews - all of which we'll lay out below.

How do I choose a professional solar installer?

When choosing a professional solar installer, you should be aware of a few red flags. Get a Quote on Your Solar Panels Installation in 60 Seconds The average home can save £1,190 every year with solar panels! Solar panels are a long-term investment, so choosing the right installer from the outset can save you a lot of trouble down the line.

Who are the best solar installers?

Despite being one of the most recently-founded solar installers in this guide, Solar4Good already has a great track record of efficient and quality solar installations, completing between 1,200 and 1,500 every year. The company was founded in 2020 and is headquartered in Harrow, UK with offices scattered around the rest of the country.

Which solar panel brands do you recommend?

UPS Solar offers a range of solar panel brands, including Sharp, Qcells and JA Solar. The latter is especially popular, as 95 per cent of JA Solar customers who responded to our survey stated they would recommend the brand to others.

Should you hire a national solar panel installer?

There are many benefits to hiring one of the UK's best national solar panel installers over attempting a DIY installation or opting for a less experienced provider. Some advantages include: Safety: installing solar panels involves electrical work at heights.
